

The one hundred short poems in this new, beautifully designed edition of the much beloved *One Hundred Butterflies* offer readers the full range of humor, wisdom and a love of life for which their author is known. Read it, savour it, carry it in your pocket or give it to friends—you'll be happy you did.

Almost twenty years ago I read these poems and loved them. Now they are back in print and I love them even more. What is better than a short piece, a slice, a moment of words that stops you dead like a black exploding sun? There is real happiness here in this book. Come to it no matter how grieved or unhappy you may be.

Don't eat so fast.  
When you use your sticks  
like scissors  
you frighten the rice.

Watermelons and Zen students  
grow pretty much the same way.  
Long periods of sitting  
till they ripen and grow  
all juicy inside, but  
when you knock them on the head  
to see if they're ready—  
sounds like nothing's going on.

The potter,  
innocent of all  
he makes  
how could he know  
his bowl would hold the moon?
